

Release Note

Software Version: 14.0.0.4.r1

Models: C400/C600

Date: 2018-11-09

1 BUG Fixes

1. Fixed the problem that phone rebooted lines sometimes show unregistered.
2. Fixed the wrong url of action plan configuration and the interface stuck when video is loaded.
3. Fixed the problem of displayname configuration on the remote, and displayname with quotation marks on the local.
